

CONTENT DESIGNER

Overview:

Mission is actively looking for an experienced Content Designer to join its dynamic Content Team. We are looking for a candidate with 3+ years' experience working with large luxury brands in a similar role within an agency or in-house. Experience with Adobe suite including After Effects is essential along with an ability to manage a design project from concept to design, to crafting, through to creating final artwork for print.

Mission needs you to demonstrate:

Creativity

- Strong creative thinking across all areas of work
- Awareness of current trends and attitudes

Technical Skills

- Excellent creative suite capabilities, especially Photoshop, InDesign, Illustrator, After Effects
- A working knowledge and proficiency to use a camera for smaller photographic jobs
- A strong understanding of creative artworking, and capability to produce files ready for all social platforms
- Knowledge of a wide spectrum of digital, print and electronic media and their different technical specifications

Commerical & Management

- That you are detail-oriented, solutions-focused, and able to multi-task with solid organisational and time-management skills
- A proven ability to manage deadlines, and project delivery of your work including working to stringent deadlines
- Competency and confidence at producing basic structures and ideas
- Impeccable attention to detail
